UCC GUARDRAIL BASE

Universal Compression Clamp Base

Part ID: 71091

The Universal Compression Clamp Base Guardrail System seamlessly integrates with more than 95% of competitor upright guardrails, eliminating the need for pins. Installed with the ease of an impact gun, this innovative base ensures a secure and wobble-free system. It is designed to accommodate both 1.66 and 1.90 OD tubes and is meticulously crafted from top-quality raw materials and components, all proudly sourced from the USA.

COMPLIANCE: OSHA 1910.29, 1926.502 & CSA Z259

Key Features

- 95% compatible with competitors upright rails
- No pins required
- Fits 1.66 to 1.90 outside diameter (OD) rail
- Product Weight: 58 lbs.
- Meets compliance: OSHA 1926.502
- Test to meet CSA Z259 standards
