SAFETY

Tie Down created the best perimeter guardrail system on the market. Manufactured in Atlanta, Georgia at our state-of-the-art facility, the patented lightweight baseplate weighs 40% less than the competition, stacks easily, and is designed to absorb impact into the railing more efficiently. Tie Down rails come standard in our proprietary TS22 High Visibility Yellow Paint. Also available in 15 additional colors. Tie Down Durable Coating is engineered to last against extreme weather and UV degradation. Tie Down Safety-Unrivaled Quality Control.

**NEW! TranzCart Mobile Roof Top Transport**

# GUARDRAILS

## UNIVERSAL GUARDRAILS

Universal Guardrails by Tie Down are interchangeable with the Architectural Series bases. The universal guardrails are manufactured out of high strength low alloy steel (HSLA). Guardrails exceed all OSHA load requirements. All guardrails and bases are manufactured 100% in USA.

Guardrails are available in High Visibility TS22 Safety Yellow or Pre-Galvanized Sold in pallet quantities of 12.

## ZIP BASE

The 3-hole base galvanized or HV TS22 Safety Yellow coating with upgraded riveted rubber feet (58 lbs.) Nests and stacks easily for storage before and after use. Zip Base offers superior resistance to impact loads and its unique design is 40% lighter than competitor bases. Comes with toe board slots on each side and handle holes for lifting. Pallet of 12 bases only.
