

RB-412 PSN NETTING SYSTEM (888) 949-3199

PRODUCT SPEC SHEET

1. Slab Bracket 2. Bottom Plate 3. Top Plate 4. Bracket Adjustment Bolt 5. Bottom Bracket Ears 6. Top Bracket Ears 7. Bottom Ear 6" Bolt and Nut

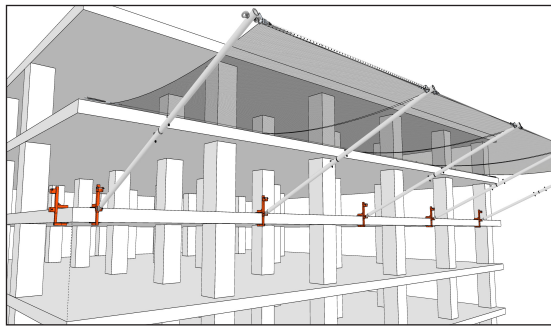

8. Swivel Coupler using impact wrench 9. 6" Bolt and Lock Nut

10. Bottom Pole 11. Bolt (attach coupler and pole) 12. Lock Nut 13. Bolt (attach coupler and pole) 14. Lock Nut 15. Mid Coupler (inside of poles) 16. Top Pole 17. B7 Stud and Eynuts

Patent Pending

Slab bracket can accommodate decks from 4" to 22" deep

Safeline-FP's Personnel Safety Netting System was designed to protect your workers, adjacent properties and the general public when working at height. These life-saving net systems are compliant with OSHA 1926 safety requirements, and ANSI A10.11-2016.

Our PSN Netting System benefits include:

- High tensile synthetic diamond mesh nets are designed to meet the most rigorous construction demands.
- Our Patent Pending Slab Bracket design offers superior clamping force
- Galvanized for durability
- Easy to install
- Made in the USA
- Rental and Purchase options available

This system is rated for fall protection

Dimensions	20' 0" pole extension, 22" max slab depth
Weight	105 lbs
Overall Length	20' 0"
Product Type	PSN Netting System
Product Color	Galvanized Grey
Coating	Galvanized
Tube Material	6061-T Aluminum
Standards	OSHA 1926 , ANSI A10.11-2016
Recommended Industry	Construction
